The Inspiration Behind "The Mind Games"

Brighton's "The Mind Games" emerged from her fascination with the human mind's capacity for deception, projection, and self-delusion. Drawing inspiration from psychological experiments, cognitive biases, and neurological studies, Brighton seeks to visualize the unseen processes that govern our thoughts and perceptions. The project was conceived during her research into mental health, cognitive psychology, and the ways in which societal influences shape individual realities.

Concept and Themes

Core Concept

At its heart, "The Mind Games" is an exploration of the internal battles that define human experience. Brighton posits that the mind is a playground of illusions, where perception often conflicts with reality, and subconscious influences manipulate our understanding of ourselves and others.
